Passport Scanner

ID Scanner

Why Hotels Use GuestBan

Protect Your Property

Identify banned or high-risk guests before they cause damage, disputes, or chargebacks.

Save ID Records Securely

Store scanned ID images as proof for chargebacks and disputes.

Web Portal Access

Access scanned IDs, guest records, and DNR history anytime through a secure online portal.

Support Multi-Property Management

Manage records, DNR alerts, and ID proof across multiple properties from one system.

Win Chargebacks with ID Proof

Use stored ID scans and verification data as documented proof to help defend chargebacks and payment disputes.

Perfect For

- Independent Hotels
- Multi-Property Groups
- High-Traffic Locations
- Properties Rocused on safety, Compliance, and Loss Prevention
